Set up in 1992 SSANZ was established to protect the rights and privileges of New Zealand Firearm owners. Primarily a political lobby group we have campaigned successfully with others such as COLFO against various legislation that attempted to restrict the ownership of firearms in New Zealand.

In more recent years the threat to firearm ownership comes not only from new legislation but a raft of small restrictions imposed by Government Departments, District & Regional Councils, corporate organizations and urbanization of our rural environment. As a rule we have to contend with a generally hostile mass media and an unsympathetic public.

By joining SSANZ you help to make us a more effective lobby group. We will keep you informed of issues that affect our sport and together we will attempt to oppose those that have an adverse outcome while supporting situations that encourage shooting sports.
